“Financing the economy is the big challenge of this year. The effects of the pandemic are visible in the economy and in the society, and the state must access external funds in order to be able to support assistance or relaunch programs. During this difficult period, Romania has managed to obtain financing under favourable conditions compared to countries in the same investment category, based on a relatively high interest from investors and in an extremely compressed timeline. We are glad that we were able to help and we hope that the next financing will occur in calmer market conditions”, declared **Alexandru Bîrsan**, *partner at Filip & Company*.

The Filip & Company team that assisted the Ministry of Public Finance in this project was mainly composed of Alexandru Bîrsan (partner), Monica Statescu (counsel) and Andreea Banica (associate).
